William Dixon
Denver, CO

Full Stack Developer

(719)321-3014

Wdixon2186@gmail.com
https://www.linkedin.com/in/williammdixon/

SKILLS:

Final Cut Pro X, HTML, CSS, Javascript, React
Node.js, Express, Bootstrap, Python, Django

PROJECTS:

Trivia: Designed trivia game using HTML, CSS, and Javascript based on famous quotes from wide released movies.
https://wdixon2186.github.io/movieTrivia/
Local Library: worked successfully with NODE.js, Express, Mongoose, HBS, and CSS to build a fully functioning database that housed information on books and movies I own.
https://books-and-movies-db.herokuapp.com/movies
City Fyndr: Worked in a team using Node.js, Express, React.js, Boot-strap, and CSS to develop an app that allows users to find census data on the top 50 cities in the United States.
https://wdixon2186.github.io/City-Search-Front-End/#/
Internet Makes A Movie: Built using Django, Python, and HTML, the site serves as a social media platform for people to submit screenplay pages that build off of other users projects.
